

Timothy Do

An A.I. Machine Vision Enthusiast & DSP Techie to Make the World A Better Place

EDUCATION

University of California, Irvine — *B.S. Electrical Engineering*

September 2019 - June 2023 (Expected)

- 3rd Year Undergraduate, Senior Standing
- Overall GPA: 3.90, Major GPA: 3.97
- **Specialization:** Digital Signal Processing (DSP)
- **Research Interests:** DSP with AI, Image Enhancements, Motion Interpolation, and Pixel Manipulation to make media more enjoyable.
- **Relevant Coursework:**
 - Network Analysis (EECS 70B), Discrete Signals (EECS 50), Advanced C Programming (EECS 22)
- **Major Coursework** for Fall 2021: EECS 170A (Semiconductors), EECS 152A (Digital Signal Processing), and EECS 145 (EE Analysis)
- **Clubs and Societies:** IEEE, ZotHacks, Linux User Group
- **Awards:** Dean's Honor List (GPA 3.5+) for six quarters at UCI

EXPERIENCE & PROJECTS

TTLZNetChess - *An Advanced Client-Based Chess Application*

March 2021 - June 2021

- **Languages Used:** C, Makefile, git
- Managed a team of four developers into develop a C-Based Chess Application (with git & Version Control) for EECS22L (Intro to Software Engineering)
- Implemented Terminal Graphics (Colors) using Escape Codes
- Implemented AIs in Chess using Minimax Algorithm
- Networking Support using standard sockets and FCFS Protocol

RefreshVideos - *A High Refresh Rate Video Player*

April 2020 - Present

- **Languages Used:** HTML / CSS / Javascript
- Used Canvas to play videos at high frame rates and apply effects
- Featuring filters like Edge Detection, Aging, etc.

PiFmMorse - *A Morse Code FM Transmitter for the Raspberry Pi*

September 2020

- **Languages Used:** Python
- A Program to transmit Morse Code over FM radio via GPIO Pin 4
- Learned to concatenate .wav files via wave library
- Learned to call linux terminal commands using os library

SCU Complex Fires - *A Website Providing Wildfire Resources*

August 2020 - September 2020

- **Languages Used:** HTML / CSS / Javascript
- Provided Wildfire resources for research, shelter, and news
- Worked with a team of 4 and remotely collaborated through Github
- Features an Energy-Efficient Dark Mode.

SKILLS

Web Programming

Experience with HTML, CSS, and Javascript a managing websites.

Compiler / Object-Oriented Programming

Experience with C, Java, and Python libraries

GPIO Programming Programming GPIO pins on the Raspberry PI using Python and the GPIO Library. Also programmed Arduino circuits in C.

CUDA Programming

Programming GPUs to do Matrix Multiplications and DSP

Computers

Experience with circuit board design and assembly for Desktop machines.

HACKATHONS

Cisco Webex Hackathon 2021

Gratition: An Easing Mental Health Web App (with Google Voice Synthesis)

Languages: HTML/CSS/JS

ZotHacks 2021

Anteatings: A Fun JS-Based Antsmashing Game on the Web

Languages: HTML/CSS/JS

LANGUAGES

English (Fluent), **Vietnamese** (Fluent), & **Spanish** (Proficient)
