

Timothy Do

San Jose, CA | +1 (408) 644-5538 | timothydobsa@gmail.com | [linkedin.com/in/do-timothy](https://www.linkedin.com/in/do-timothy) | github.com/dotimothy

EDUCATION

University of California, Irvine

Sep. 2019 – June 2023 (*Expected*)

B.S. Electrical Engineering, Specialization in Digital Signal Processing

Irvine, CA

- **Cumulative GPA:** 3.92/4.0, **Major GPA:** 3.935/4.0, **Accelerated Status**
- **Relevant Coursework:** Computer Architecture, Control Systems, Digital Image/Signal Processing, Electronics
- **Research Interests:** Hyperspectral Image Processing, Embedded IoT Systems, Parallel GPU Optimizations
- **Clubs and Societies:** Irvine Computer Vision Laboratory, IEEE, IPC, Eta Kappa Nu, Tau Beta Pi

University of California, Los Angeles

Sep. 2023 (*Expected*) – March 2025 (*Expected*)

M.S. Electrical and Computer Engineering, Signals and Systems Track

Los Angeles, CA

EXPERIENCE

Industrial Internet of Things Intern

June 2022 – Sep. 2022

Western Digital

San Jose, CA

- **Skills:** MySQL, Python, Raspberry Pi, Soldering, Linux, Lean Six Sigma
- Certified as a Six Sigma Yellow Belt for learning Six Sigma foundations
- Applied Industrial Toolsets to develop a Sensor Data Analytics Platform
- Saved the company an annual projected cost of \$312,000 from hazard mitigations

Undergraduate Student Researcher

January 2022 – Present

Irvine Computer Vision Laboratory at UC Irvine

Irvine, CA

- Researched under Professor Glenn Healey on the topic of Spectral Image Filtering and Baseball Simulations.
- Digitized Hyperspectral Imaging Filters into CSVs and compared them against certain chemical emissions.
- Led the lab in analyzing Hyperspectral Data Cubes and determined dominant bands in SWIR and NWIR spectras

Vice President

Nov. 2021 – Present

Institute of Printed Circuits Club at UC Irvine

Irvine, CA

- Reserved club meeting rooms and sent weekly emails to club members regarding club events
- Created the IPC Club Website and managed IPC's social media platforms
- Designed circuit & programming workshops for IPC club members to apply in industrial settings

PROJECTS

The Do-Pro Senior Design Project | *Raspberry Pi, Python, MATLAB, OpenCV*

Sep. 2022 - March 2023

- Led a team of four in creating an embedded stereo-vision camera for ADAS detection and 3D-Reconstruction
- Calibrated the stereo-camera in MATLAB and implemented block matching algorithms with OpenCV
- Designed the button/touch-screen user interface using RPi.GPIO and Tkinter for navigating the camera
- Developed a Power Regression Model for the Do-Pro to perceive depth with 6% error from 1-3 feet

AM Radio & Amplifier | *LTSpice, Oscilloscopes, Soldering*

April 2022 – May 2022

- Led IPC @ UCI's Two-Part AM Radio Workshop, Creating the Schematic for Optimal Gain and Efficiency
- Designed Audio Amplifier using the *LM741* Op-Amp in an Inverting Configuration with a Single USB 5V Supply
- Designed Envelope Detector using the *1N4148* Diode and RC Band-Pass Filter for Demodulation

EECS195-Colorization | *Python, MATLAB, OpenCV, Tensorflow*

Feb. 2022 – March 2022

- Colorized grayscale images using GAN and Auto-Encoder Neural Networks
- Gathered own datasets by taking pictures of different scenery
- Clustered pixels into superpixel subgraphs for uniform training weights

SKILLS

Electronics: Raspberry Pi, Network Analysis, Cadence, LTSpice, Soldering, Oscilloscope & Multimeter Measurements

Programming Languages: Python, Java, C, CUDA, MATLAB, bash, MySQL HTML/CSS/Javascript, VHDL

Developer Tools: git, SSH, Makefile, Linux, Azure, VS Code, Visual Studio, PyCharm, Eclipse, Vivado HLS

Libraries: OpenCV, Pandas, Numpy, Matplotlib, PIL, Tensorflow, Pytorch, Tkinter RPi.GPIO, Socket, Flask
