

Timothy Do

An A.I. Machine Vision Enthusiast & DSP Techie to Make the World A Better Place

EDUCATION

University of California, Irvine — *B.S. Electrical Engineering*

September 2019 - June 2023 (Expected)

- 3rd Year Undergraduate, Senior Standing
- Overall GPA: 3.90, Major GPA: 3.93
- **Specialization:** Digital Signal Processing (DSP)
- **Research Interests:** DSP with AI, Image Enhancements, Motion Interpolation, and Pixel Manipulation to make media more enjoyable.
- **Relevant Coursework:**
 - Network Analysis (EECS 70B), Discrete Signals (EECS 50), Advanced C Programming (EECS 22)
- **Major Coursework** for Fall 2021: EECS 170A (Semiconductors), EECS 152A (Digital Signal Processing), and EECS 145 (EE Analysis)
- **Clubs and Societies:** IEEE, ZotHacks, Linux User Group
- **Awards:** Dean's Honor List (GPA 3.5+) for six quarters at UCI

EXPERIENCE & PROJECTS

TTLZNetChess - *An Advanced Client-Based Chess Application*

March 2021 - June 2021

- **Languages Used:** C, Makefile, git
- Managed a team of four developers into develop a C-Based Chess Application (with git & Version Control) for EECS22L (Intro to Software Engineering)
- Implemented Terminal Graphics (Colors) using Escape Codes
- Implemented AIs in Chess using Minimax Algorithm
- Networking Support using standard sockets and FCFS Protocol

RefreshVideos - *A High Refresh Rate Video Player*

April 2020 - Present

- **Languages Used:** HTML / CSS / Javascript
- Used Canvas to play videos at high frame rates and apply effects
- Featuring filters like Edge Detection, Aging, etc.

PiFmMorse - *A Morse Code FM Transmitter for the Raspberry Pi*

September 2020

- **Languages Used:** Python
- A Program to transmit Morse Code over FM radio via GPIO Pin 4
- Learned to concatenate .wav files via wave library
- Learned to call linux terminal commands using os library

SCU Complex Fires - *A Website Providing Wildfire Resources*

August 2020 - September 2020

- **Languages Used:** HTML / CSS/ Javascript
- Provided Wildfire resources for research, shelter, and news
- Worked with a team of 4 and remotely collaborated through Github
- Features an Energy-Efficient Dark Mode.

SKILLS

Web Programming:

Created Websites with HTML, CSS, and Javascript

Compiler / Object-Oriented Programming:

Experience with C, Java, and Python libraries

GPIO Programming:

Used MicroPython or Ino to control circuits digitally with Arduino or Raspberry Pi..

Computers:

Assembled/Debugged Desktop machines with OS imaging.

CUDA:

Programmed GPUs to do Matrix Multiplications and DSP

HACKATHONS

Cisco Webex Hackathon 2021

Gratition: An Easing Mental Health Web App (with Google Voice Synthesis)

Languages: HTML/CSS/JS

ZotHacks 2021

Anteatings: A Fun JS-Based Antsmashing Game on the Web

Languages: HTML/CSS/JS

LANGUAGES

English (Fluent), **Vietnamese** (Fluent), & **Spanish** (Proficient)
